

Figure 1 is a schematic diagram of the experimental setup. It shows a subject seated at a table, viewing a video screen. A camera is positioned above the screen. A light source is positioned to the left of the screen. The diagram illustrates the spatial arrangement of the subject, the video screen, the camera, and the light source during the experiment.

Figure 1 illustrates the stages of chick development from fertilization to hatching. The stages are numbered 1 through 12. Stage 1 shows a fertilized egg. Stage 2 shows cleavage. Stage 3 shows a two-cell stage. Stage 4 shows a four-cell stage. Stage 5 shows a morula stage. Stage 6 shows a gastrula stage. Stage 7 shows early neurulation. Stage 8 shows late neurulation. Stage 9 shows early hatching. Stage 10 shows late hatching. Stage 11 shows a hatched chick. Stage 12 shows a hatched chick.

Figure 1 is a schematic diagram of the experimental setup. It shows a subject seated at a table, looking at a video screen. A camera is positioned above the screen. A target is placed on the table. A ruler is used to measure the distance from the subject's eye to the target. The distance is labeled as 100 cm. The target is labeled as 'Target' and the ruler as 'Ruler'.
